www.leroy.ca

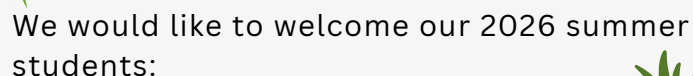

- We continue to make progress on the Strategic Plan objectives with a new marketing campaign entitled:

- Our goal is to promote the outstanding amenities that LeRoy has to BHP Jansen employees (and anyone else) that is looking to relocate. Not a camp, not a temporary residence - but a place to set down roots, become a part of the community and create their own hometown only 10 minutes from work.
- We encourage all residents to become ambassadors for the Town and promote LeRoy when you get an opportunity.
- We continue to fill our team with great staff and would like to extend a warm welcome to John de Gooijer, our part-time Chief Financial Officer. We are also welcoming 4 great summer students to help with maintenance, summer programming and customer service in the office.
- This fall we will be seeking a full-time Administrative Assistant.
- Kirt Holowachuk, Director of Operations and Amy Schreiner, Assistant CAO have both been taking on a more intensive involvement in the CAO duties and will be cross-training in this area as part of the succession plan.
- Christopher Sainsbury, Assistant Foreman has been taking additional training with a more intensive involvement in the operations of Town Foreman.

- The succession plan for the Town of LeRoy recognizes the skills and abilities of our existing staff and prepares our next Chief Administrative Officer from within.
- Myself - Jim Puffalt, your current Contract Acting CAO: My role is to offer guidance and advice to Council and Staff, provide management oversight, strategic planning and economic development.
- All contract and staffing costs have been included in the 2026 budget that saw a 3% increase from 2025, including the addition of an Administrative Assistant, a position that was included in the staff complement approximately 5 years ago.
- The shift of duties has allowed the Town to focus on the growth and opportunity of this once-in-a-generation investment in our area.

**Upcoming Town Council Meeting
Monday, July 13th, 2026**

7:00 pm

We welcome advice and guidance. Please feel free to contact us at leroy@leroy.ca or call 306-286-3288.

MAY & JUNE COUNCIL MEETING HIGHLIGHTS:

- At the Regular Meeting of Council in May, Council approved a rate increase of \$1.00 per month to the REACT curbside fee, to help offset the rise in fuel prices. Council also approved a \$2.50 per month recycling fee to be added to the utility bill. Both fees will begin at the August billing run. This fee is to help offset the initial up-front purchase of all of the recycling carts, with the hope of having this paid off in 3 years.
- At a Special Meeting of Council in May, the 2026 budget was approved and tax rates were approved. The Municipal mill rate increased by 3% but the Base rate and Education mill rate stayed the same as 2025.
- Council approved some amendments to the Zoning Bylaw throughout the May and June Council meetings - some changes in the discretionary uses for multi-family residential zoned property and some re-zoning of land from commercial to multi-family residential.
- The previous Waste Bylaw was repealed and a new Bylaw was approved at the June meeting to accommodate Waste and Recycling.

Recycling carts will be getting delivered into town on Monday, June 15th and then dispersed out to the households

MAYOR'S MEMO

As usual, LeRoy has been its usual busy hub of activity. We have been busy trying to prep for summer and all of the activities that will be happening.

In May we had the awesome students and staff of LeRoy School do a town-wide clean up - this happens every year and I truly don't think they get enough recognition for this. It is by no means a fun job to do but we thank you very much for it. At the end of May we had our annual street sweeping service come in and clean up our roadways. Our summer students have started working and, as the rain allows, we will see mowing and more mowing... and probably a lot more mowing happening. In the office, our summer students have been working on a summer recreation program and assisting with some office duties.

Outside, we have seen work happening with the LeRoy Community Outdoor Spaces Committee as they have been actively applying for grants and seeking funding to get the multi-sport court installed. As well, fundraising and work is being done to revitalize a ball diamond. This community always goes above and beyond to ensure everyone has access to a variety of sport, culture and recreation. A huge thank you to everyone volunteering their time and effort.

Kurt Schreiner

NOTICE TO RESIDENTS UNDER THE LEROY & DISTRICT FIRE DEPARTMENT COVERAGE AREA

The LeRoy & District Volunteer Fire Department requires that any resident or individual contact the 9-1-1 dispatcher before the commencement of a controlled burn and again upon completion. A controlled burn includes, fires, grass fires, old buildings, etc. If an unreported controlled burn is responded to by the fire department, the land owner or resident will be billed at \$1,000 PER HOUR.

TO REPORT A CONTROLLED BURN, PLEASE CALL 1-866-404-4911

IMPORTANT NOTICE: SUMMER CAMP

This summer the Town of LeRoy was only awarded one summer student for recreation programming through the Canada Summer Jobs program. Due to this, we will not be able to run a summer camp program.

We encourage parents of young children to reach out to the LeRoy Early Learning Centre for their available summer options.

Our summer recreation coordinator is working on programming for older children and the community to ensure we still have some fun activities. Please watch our social media and look for posters on billboards as events get planned.

REMINDER

Please remember to pick up your pet waste and dispose of it properly.

THINKING ABOUT BUILDING IN LEROY?

Purchase a lot in our Willow Subdivision and you can choose between saving \$10,000 off of the lot price or 2 years of property tax abatement

(plus the year of construction)

With fast approvals, supportive staff and a no-hassle process - we help you get shovels in the ground at your pace.
